

#aufstehen

Kampagne für Solidarität mit Geflüchteten

STAND UP - Campaign for solidarity with Refugees

To everyone it can happen: you have to flee.
Nobody leaves his home without reason.

Some refugees are forced out of this country.
Standing up in Aeroplanes can save lifes.

We set a mark for our fellow humans, who seek shelter and peace in Germany, one of the richest countries in the world. We activate the civil society and challenge the European policy of walling off and irresponsibility with commitment. Reflecting about the own attitude to refugees will help to overcome fear and activate action.

Only standing up one can walk upright!

#aufstehen is a symbolic act

#aufstehen means showing your attitude

#aufstehen means to get going

#aufstehen means to be part of the decision-making-process

Standing up is a strong symbol – more so if many do it.

Be part of it: film yourself while standing up, post your clips on the social media, tag them with #aufstehen, tell the world about it!
